ABOUT ME

Systems Analysis student nearing graduation, passionate about developing and integrating digital solutions. Strong background in programming, databases, and APIs, complemented by understanding and project implementations in Data Science . Seeking to contribute as a **Systems Analyst** or Developer in the industry.

EXPERIENCE

Full - Stack Developer — Freelance

Jun 2024 – Dec 2024

Mar del Plata, Argentina

- ✓ Developed modular web components using **React.js** to enhance reusability.
- ✓ Designed and implemented RESTful APIs with **Flask (Python)** integrated to PostgreSQL.
- ✓ Optimized SQL queries and stored procedures improving data performance.
- ✓ Collaborated with clients for requirements analysis and solution delivery.

PROJECTS

PreCode — Capstone Project (2025)

- ✓ Built an LLM-integrated code generator using **React.js + Flask**, automating structured code templates.

Pixel - Mech - Mayhem — Developer (2024)

- ✓ Created a **JavaScript MVC game** implementing custom state machines and modular controllers.

TECHNICAL SKILLS

Programming

- ✓ Python (Flask, Pandas, Numpy, Matplotlib), JavaScript (React.js, Node.js), Tailwindcss

Databases

- ✓ SQLite, PostgreSQL, MySQL — design, querying, optimization

Integration & Tools

- ✓ RESTful APIs, JSON, XML, Git, Visual Studio, Postman, Docker

EDUCATION

Bachelor's Degree in Systems Analysis

Expected Dec 2025

ISFT N°151 — Mar del Plata, Argentina

COURSES & CERTIFICATIONS

- ✓ Data Science — Conciencia + Accenture (2023)
- ✓ Apache Airflow — Udemy (In Progress)

LANGUAGES

- **Spanish:** Native
- **English:** Advanced (Professional proficiency)
